1. Introduction

This course covers the theory and the quantitative tools that are necessary for evaluating firm values and understanding financial markets. Specifically, we deal with the valuation of future cash flows, pricing stocks and bonds, capital budgeting, risk and return, and long-term financing.

2. Course Objectives

This course covers the introduction of financial issues.
Our goal is to understand the following topics.

1. some basin accounting
2. Time value of money
3. pricing stocks and bond
4. capital budgeting
5. stock return and risk
6. the cost of capital

3. Class types and activities

Students are strongly recommended to read the text book and Power Point files (written in English) before the classes.

Textbooks, lecture notes, and any other materials are provided in English, and the basic concepts will be explained in English.

This course should be basically conducted in English. However, to participate in this class, English fluency is not important at all. Your passion and interests are necessary.

You can send me an e-mail or discuss with me after the class. You can also visit my office when you need anything.

In my classes, please feel free to ask and claim whatever you want.
